Since december 2009 you have the possibility to complete your holidays with a revitalizing visit in our new “Spa Las Salinas” – created in order to make you live total well-being, enriching all senses. Let go of the daily routine, replenish with new energy and enjoy the overall feeling of relaxation.

Start the thermal circuit with a footbath, passing on to the sauna and hammam (Turkish bath). Next, you can indulge in floating in the “Dead Sea” pool with salts or bathing in the big pool with hydromassage-jets or in the whirlpool. The relax zone with colour therapy spreads out from the inside of the building to it´s outside, where also open air massages are possible.

In 4 cabins for treatments, we offer a great variety of premium massages, treatments and therapies, all of them devised to care of you to the utmost. Our highly qualified staff will be happy to give you detailed information about the treatments.

The natural and sensual materials, like wood and natural stone used in the interiors, colourful state-of-the-art lightening, candles – everything contributes to an ambiance in which you will find easily rest for body and mind and delight in letting you pamper.
